

**REMARKS/ARGUMENTS**

Claims 1-3, 7, 10, 13, 14, 18, 21, 24, 24, and 33 have been amended. Claims 31 and 32 have been cancelled. Claims 1 to 16, 18 to 27 and 33 to 34 are currently pending.

As applicant understands it, in the Office Action dated August 13, 2008, the Examiner has asserted that applicant's arguments, as presented in the Amendment of May 6, 2008, are narrower than the claims then presented, as the claims are not limited to actual networked application codes. Claims 1-3, 7, 10, 13, 14, 18, 21, 24, 24 have been amended in response to the Examiner's assertion. With this amendment, applicant reasserts its arguments as set forth in the May 6, 2008 amendment. Reconsideration and allowance of claims 1 to 16 and 18 to 27 is therefore respectfully requested.

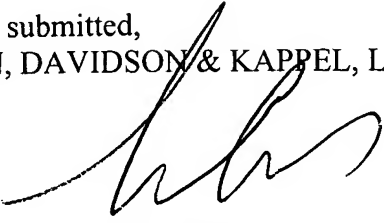

Claim 33 has similarly been amended to clearly recite actual networked application codes, and in addition, to recite additional details regarding the processing of messages and packets exchanged between the client interface, server, and network simulator. Support for these amendments is found throughout the specification, as well as in Figures 3 and 4. Reconsideration and allowance of claims 33 and 34 is therefore respectfully requested.

**CONCLUSION**

The present application is respectfully submitted as being in condition for allowance and applicants respectfully request such action.

Respectfully submitted,
